The joy of Quantum University

NEW AGE PROGRAMS

STUDENTS ARE DISCOVERING

www.quantumuniversity.edu.in

GET INSPIRED

Quantum University is a new-age University that inspires you to gain, learn, enjoy, acquire and transform during your years here. Adopting international practices and procedures, emphasizing highly evolved teaching-learning pedagogy and developing a human approach towards education are some of the pillars on which Quantum University rests. It allows students to earn a Major degree in their chosen subject of professional interest. Alongside, a Minor can be earned from a completely unrelated field or one can super specialize in the same field as the Major on attaining certain number of credits.

MEJORS

A Major is the main field of study in which students earn a degree on completion of the course credits as stipulated by the University. The Major prepares the student to step into the corporate world or to pursue post-graduate studies.

MINOR

Besides choosing a Minor from the related domain, students are also required to choose subjects from open electives which are inter-disciplinary in nature. These widen their knowledge base and hone their lateral thinking. An interesting Minor makes students stand out at the time of placement. For instance, a Computer Science Engineering student can pursue his minor in Entrepreneurship, or an Agriculture student can pursue his minor in Economics.

SOME OF THE AVAILABLE MINORS

Computer Science Programming, Robotics, Environmental Studies, Digital Marketing, Entrepreneurship, English, Foreign language, Economics, Agri Management, Media and Journalism, Culinary Skills.

THE QUANTUM ADVANTAGE

01

INTERDISCIPLINARY EDUCATION

Attain better professional avenues

Before you choose your University, ask yourself a couple of 'New Age ' questions. Can I study Technology with Music, Agriculture with Cyber Security of Computer Science with Economics? Will my university allow me such inter-disciplinary immersion that will equip me to handle a range of skills and roles in my professional and personal life?

Quantum understands that life demands different skills for different roles. It shall be a University that understands your needs, promotes inter-disciplinary study and prepares you for life.

02

FUTURE READY CURRICULAM

Go for outcome based learning

The best brains from academia and industry collaborate at Quantum to curate highly contemporary, functional and dynamic curricula across all its programs. In order to facilitate greater efficiency and elevated placements in the respective domains, a due emphasis on project based learning and training in collaboration with the industry is an integral part of Quantum pedagogy.

03

PASSION PROGRAMS (PROPS)

Stay connected with yourself

Quantum University conscientiously allow students to express and hone their aesthetic sensibilities in sports, theater, dance, music, photography, design, art, community service and more through a host of clubs and committees. We could possibly be the only private University in India which has programs titled 'Passion Programs' (PROPS), often pursued hesitantly, that add a third dimension to an individual.

04

CERTIFIED TRAININGS

Get skilled for the industry

Quantum University is committed to ensure that all its students have a strong core competence in their respective domains and are industry-ready at the time of passing out. To ensure this, Quantum imparts rigorous technical trainings under an array of industrial tie-ups and MOUs. These trainings are of great relevance to the industry as these are carried out by industry experts and are duly certified

BECAUSE YOU DESERVE THE BEST

AWARDS & RECOGNITIONS

Quantum University Ranked No. 1 amongst Private Universities of Uttarakhand in the exclusive survey in the year 2024.

Quantum School of Business Ranked Top 20, B-School in North India in the year 2024.

Quantum School of Technology awarded the 'Best Private Engineering College in North India for Academics'

Quantum School of Business ranked No. 1 B-School & Quantum School of Technology ranked Second among Engineering Colleges in Uttarakhand in an independent survey by the prestigious IMRB International in Uttarakhand in an independent survey by the prestigious IMRB International

Quantum School of Technology awarded the 'Best Engineering College promoting Innovation in North India

'Best Institute for Industry Academia Interface - North India' by Shri Prakash Javadekar, Hon'ble Union Minister of HRD, 23rd Feb 2017.

INTERDISCIPLINARY EDUCATION

Offering a range of Minor Programs and Open Electives

In order to promote multi-skilling and to enhance employability, Quantum Univesity actively promotes interdisciplinary education. Along with a Major Program, a student is offered a range of Minor and Open Electives to choose from. One can study Computer Science (Major) with Economics (Minor), or Agriculture (Major) with Entrepreneurship (Minor), or Management (Major) with a Foreign Language (Minor).

As the industry prefers multi-tasking skills, students having interdisciplinary education have a 40% better chance of placement over others.

MINOR PROGRAMS AND OPEN ELECTIVES

The Minor and Open Elective is generally from a completely unrelated field and greatly improves the skill sets and employability of the students. It also helps them to customize their degree to their own academic interests or career objectives. Students are already reaping huge advantages by opting for very interesting Minor and Open Elective options.

Quantum University invites industry to have a closer look at the competencies and skill sets of its students. A comprehensive list of Minor Programs and Open Electives is a part of this brochure.

MINOR PROGRAMS AND PLACEMENT

A combination of a useful Minor with the Major program makes the students stand out at the time of placement. Companies are eagerly looking for multi-tasking students who have more than just one skill set.

For instance, a student who has done B.Sc Agriculture along with a Minor in Entrepreneurship is highly preferred by companies like ITC, Patanjali or other agro based companies over the student who is only B.Sc Agriculture. Hundreds of students at Quantum University, who have combined Minors with their Majors have not only got their dream placements, but have also stood out in their work places and availed better promotions.

PASSION PROGRAMS (PROPS)

Quantum University shall conscientiously allow students to express and hone their aesthetic sensibilities in sports, theater, dance, music, photography, design, art, community service and more through a host of clubs and committees. We could possibly be the only private University in India which has programs titled 'Passion Programs' (PROPS), often pursued hesitantly, that add a third dimension to an individual. For Quantum, these are not just some bizarre combinations but components of a holistic and fulfilling education.

ENGINEER YOUR FUTURE

QUANTUM SCHOOL OF TECHNOLOGY

Quantum School of Technology is a world-class center of excellence that provides an intellectually stimulating environment to hone one's engineering skills besides growing culturally and spiritually

Highly seasoned faculty, well researched curriculums across streams, a range of MOUs for collaborative programs with the industry, and a robust culture of training to foster skill development inculcate a love for learning and improve employability quotient. The education vision adopted by quantum school of technology is quite unique. It actively promotes inter-disciplinary learning where one can study Computer Science with Economics or Mechatronics with Cyber Security. A student can do a specialization in one's own domain or earn a minor degree in an unrelated field. The guidance of a mentor is always at hand. Quantum School of Technology has a strong and consistent placement record with nearly a hundred blue-chip companies visiting the campus every year offering record packages in the state. Constantly recognized for its excellence, some of the coveted awards conferred on Quantum School of Technology include 'Best Private College in North India' (Brands Academy), 'Best Engineering College in North India promoting innovation' and 'Best institute for Industry Academia interface in North India' (ASSOCHAM).

TRUSTED AND FAVOURED

QUANTUM SCHOOL OF GRADUATE STUDIES

Quantum School of Graduate Studies emerged as a clear favourite with the finest students of the region to pursue their higher education. Students have joined in large numbers the various Honours programs being offered in commerce, finance, banking, sciences & humanities. Some of them have even preferred it over even Delhi University to stay back and study here.

An intense graduation program is a pre-requisite to a sound professional career. Quantum School of Graduate Studies has introduced a spectrum of undergraduate programs that serve the contemporary requirements of students and shall always ensure a very high standard of teaching-learning process. Professionals in sectors like finance, pure sciences and humanities are in huge demand and are carving very rewarding careers. Quantum School of Graduate Studies covers these significant sectors through its various undergraduate programs that have found a huge preference with science, commerce and arts students alike. A number of toppers from the region, with scores above 85% in class 12th board have preferred to pursue their studies at Quantum University. The region includes major cities like Roorkee, Saharanpur, Haridwar, Rishikesh; and even from Muzaffar Nagar and Dehradun. The classes also have a rich number from as far as North East and Bengal. Programs such as B Com (Hons), B Sc (Hons) and BA (Hons) at Quantum provide solid foundation for professional competence as well as for pursuing higher education. The emphasis is on maximizing industry interface via real internships, workshops, seminars and certified trainings for all its programs. The curriculums are curated by experts and delivered by highly experienced faculty.

GO FOR THE INTER-DISCIPLINARY LEARNING EXPERIENCE

Quantum University understands that today's needs are inherently inter-disciplinary and require intense multi tasking. The graduates, in a fast changing society, will not be entering a career that lasts a lifetime but a lifetime of multiple careers. As such, Quantum University promotes the universally acclaimed inter-disciplinary study. Students pursuing an under graduation degree here shall have the option to study it in an inter-disciplinary mode. They can study, for example, commerce with a foreign language, economics with entrepreneurship, science with cyber security, and so on.

TAKE THE LEADERSHIP ROLE

The program develops managers and entrepreneurs with a global perspective and an innovative, multi-disciplinary approach to problem solving.

CERTIFIED PROFESSIONAL TRAININGS

Passport To The Corporate World

One of the most defining features of MBA at Quantum is a host of value-added, certified corporate trainings included in the program. These are often passports to good job markets. The schedule and nature of these trainings keep evolving as per industry requirements. Some of the recent trainings include...

WELCOME TO THE PRIVILEGED ASSURED PLACEMENT MBA PROGRAM (APMP)*

It is being offered to meritorious and career-oriented MBA aspirants. The coveted APMP brings a range of benefits for the students, which include :

1. An Assured Placement with a minimum CTC package of Rs 4.00 Lakhs per annum* at the time of passing out or within six months of passing out !
2. A cash-back equivalent to the difference between 4.00 Lakhs and the actual placement package in an unlikely possibility of getting placed below the assured package.. For e.g., if a student gets a CTC of Rs 3.50 Lakhs per annum, then a cash back of Rs 50,000 shall be given to the student.
3. The best-in-class return on investment (ROI) and an assured golden career take-off .
4. Defeats the uncertainties of placement that the Covid times have created throughout the world.

JOIN THE GREEN REVOLUTION

QUANTUM SCHOOL OF AGRICULTURAL STUDIES

BSc (Hons) - Agriculture

MSc - Agronomy

The B Sc (Hons) Agriculture is a flagship program at Quantum University that trains professionals of the next generation for a sector bursting with opportunity. The hands-on approach of agriculture heavily reflects in the unique design of this program at Quantum University. It is emphasized via field trips, study tours and projects.

A B Sc graduate is expected to master concepts like macro-micro crop planning, agri financing and agricultural statistics besides having strong hold on core and derivative subjects.

The modernization of agriculture, and the growing use of scientific methods of cultivation have created a huge demand for educated and skilled manpower in this dominant sector of Indian economy. Quantum School of Agricultural Studies has been established to cater to this growing need. Through its undergraduate and post graduate programs in agriculture, horticulture and food processing, etc, it prepares very qualified professionals for a range of agro based careers, ranging from food production to agri business management. Under Quantum University's unique inter-disciplinary program, students even have the option to study subjects such as Entrepreneurship, Economics, Computer Applications, etc, along with agriculture and greatly improve their opportunities for employment.

HEALTH IS WEALTH

QUANTUM SCHOOL OF HEALTH SCIENCES

Quantum School of Health Sciences has established competency-based curricula in different divisions of health sciences to disseminate relevant health related knowledge and foster a culture of research in this domain. The students are trained to develop a holistic vision of health care through a very practical, skill based teaching methodology. The Indian economy is opening up to multinational pharma companies resulting in a booming sector offering lucrative careers. Students with a diploma or a bachelors degree readily find employment in pharma companies as well as number of government departments . Very strong opportunities of becoming an entrepreneur are also available to pharma students.

IT'S YOUR TIME TO BE SEEN & HEARD

QUANTUM SCHOOL OF MEDIA STUDIES & DESIGN

BA (Hons) - Journalism & Mass Comm

BSc - Animation & VFX

Students from as far as North-East and Nepal, besides other states, have opted for the new age programs offered by Quantum School of Media Studies & Design. Also, students from different streams, including science, commerce, arts & humanities, with good performance in class 12th have voluntarily selected these options to give themselves an exciting career.

Quantum School of Media Studies & Design strives to meet the contemporary aspirations of the students. It harnesses their creative energies in the areas of journalism, mass communication and applied technology in the futuristic fields of animation, user-interface, graphic design and VFX. The growing dominance of the media encompassing radio, television, films, print, advertising, branding and, of course, the entire social media provides wonderful career opportunities to the young graduates passing out of Quantum School of Media Studies & Design.

Journalism & Mass Communication is a challenging field suitable for individuals who possess excellent communication skills, critical thinking, a love for travel and meeting deadlines. Animation, VFX, UI & Graphic Design programs are for artistically inclined and creative students. They should have an eye for detail, imaginative thinking, sense of aesthetics and a natural willingness to apply technology.

Quantum University offers highly experienced faculty from the industry, modern design studios, dedicated domain-related library and software to ensure highly skilled graduates to make their mark in the industry. It also offers them the unique advantage to pursue their programs in an inter-disciplinary environment. For instance, they can study journalism with computer application, or animation with a foreign language or graphic design with entrepreneurship.

LEARN IT FROM THE MASTERS

QUANTUM SCHOOL OF HOSPITALITY & TOURISM

BHM

Diploma in Hotel Management | Certificate in Hotel Management

The Hospitality and Tourism industry is the biggest sector in the world where employment opportunity is not limited to one country. The Hotel Management students at Quantum University are trained in Business Communication, Personality Development, Front Office Operations, House Keeping, Food Science, Culinary Skills, Food and Beverage, Nutrition, Hygiene and Event Management. The curriculum lays additional focus on modern trends in Cruise Ship Hospitality.

The Aviation program ensures hands-on training in self defense, air safety and all skills essential for the cabin crew. The Program at Quantum University has an exclusive thrust on hands-on work experience, extensive lab work, live projects and real internships with star hotels, travel and event management companies. At the end of the program the student emerges as a confident, well trained professional.

BE ON THE RIGHT SIDE OF LAW

QUANTUM SCHOOL OF LAW

BA LLB (Hons)

BBA LLB (Hons)

If you have a resilient, inquisitive and an optimistic personality; and if you love challenges then law is a natural career option for you. It is a very affirmative way to serve the society and also to carve out a very fulfilling career. You must possess sound communication skills, evolved sense of logic, sharp memory and spontaneity. Advocates and lawyers have given India its most formidable leadership starting from Mahatma Gandhi and Jawahar Lal Nehru right down to Arun Jaitely and Ravi Shankar Prasad.

As we transform into a rational-legal society, law as a career has seen a quantum jump. All issues and disputes are increasingly settled in the court of law in preference to traditional methods. The need for lawyers has grown tremendously. As such, law as a career is lucrative and is held in high esteem. One gets opportunity to work on a variety of legal issues. It is a rewarding job both in terms of the perks you get and respect among clients. It is quite a secured job especially if you are working as a corporate lawyer or for some institution. At the same time it is very exciting as boredom will never settle as you will be fighting different cases each time.

Quantum School of Law offers integrated law programs designed to prepare highly competent professionals to serve the society ethically. The emphasis is on simulation of real cases and on providing useful internship opportunities to ensure practical, hands-on exposure to the budding law graduates. Based on individual preference, there are number of areas in which a law graduate can specialize. Some of these include : Civil Law, Criminal Law, Corporate Law, Taxation Law Labor Law, International Law Family Law, Constitutional Law, Administration Law, Patent Law etc.

HAVE A QUANTUM LIFE

A NETWORK FOR LIFE. A CROSS-CULTURAL EXPERIENCE

Quantum University is a crucible of multi-cultural, multi-ethnic and multi-lingual identities. Its goodwill has reached beyond Indian boundaries and attracts students not only from across India but also from as far as Nepal, Bhutan and Bangladesh. A great mix of academic, cultural and sports activities are put up by students with great energy and relish. At the Quantum Campus not only will you realise your academic potential, you shall also have great fun through a host of festivals and events.
